

DULIA-BIO - Bio Sciences in Deep Underground Laboratories

Tuesday, 20 August 2024

Deep Underground Microbiology Research - Council Chamber (13:30 - 15:30)

-Conveners: Charles Cockell

time	[id] title	presenter
13:30	[16] Tracking ancient and modern microbial life in salt and brines of Boulby Mine (N Yorkshire) or: What to look out for on Mars - (in-person)	HOLTVOETH, Jens
14:00	[17] Astrobiology in Subsurface Extreme Environments: Utilizing Brines and Minerals for Planetary Exploration - (remote)	PERL, Scott
14:30	[18] Biophysical and microbiological research at the deep underground low radiation background laboratory (DULB-4900) and tunnel of Baksan Neutrino Observatory - (remote)	ZARUBIN, Mikhail
15:00	[31] How statistical physics limits microbial life under extreme conditions: foraging and motility	WILSON, Laurence
