# Dark matter Planning?

- Consensus to make these fortnightly (skipped Easter Tuesday)
- All most welcome. Apologies no cake.
- Talks: open for suggestions - my thanks to those that have volunteered to talk about their work.
  - ▶ Direct detection (LZ, Darkside, Migdal, XLZD)
  - ▶ Light DM/Quantum (QuestDMC, AION, FASER)
  - ▶ CMS/ATLAS (extended Higgs sectors, invisible Higgs, darkQCD)
  - ▶ Boulby
- Today: Alison kindly agreed to talk about semi-visible jets and dark QCD.
- Next meeting Tuesday 5th May at 12pm [agenda](#).
- Possible topic: DD interaction exclusion plot, collider simplified models.
