

ICEC27-ICMC 2018

Tuesday, 4 September 2018

M-01 - Processing and properties NbTi/Nb₃Sn/A15/ RE123/BSCCO and MgB₂ (11:00 - 12:20)

time	[id] title	presenter
11:00	[7] M-01: 064 - Manufacture and Characterisation of Bulk MgB ₂ Superconductor with High Trapped Field for Biomedical Applications	
11:20	[8] M-01: 224 - Atmospheric oxidation of NbTi superconductors	
11:40	[9] M-01: 262 - Enhanced J _c at both self and high field of MgB ₂ superconductor through co-doping route	
12:00	[10] M-01: 331 - CIC cable technologies for high-current windings
