

Particle Physics Technology Advisory Panel and the Challenge to the UK

Paula Chadwick, Durham University – PPTAP Chair

Why a PPTAP?

- The European Strategy for Particle Physics [Update](#) identified an immediate need for active R&D programmes for future detectors and accelerators
- The European Committee for Future Accelerators ([ECFA](#)) called on to establish an R&D roadmap for detectors
- The European Laboratory Directors Group (ELDG) called on to establish an R&D roadmap for accelerators
- Work started in autumn 2020 and expected to report to CERN Council in December 2021
- UK input needed for these processes and to inform UK direction

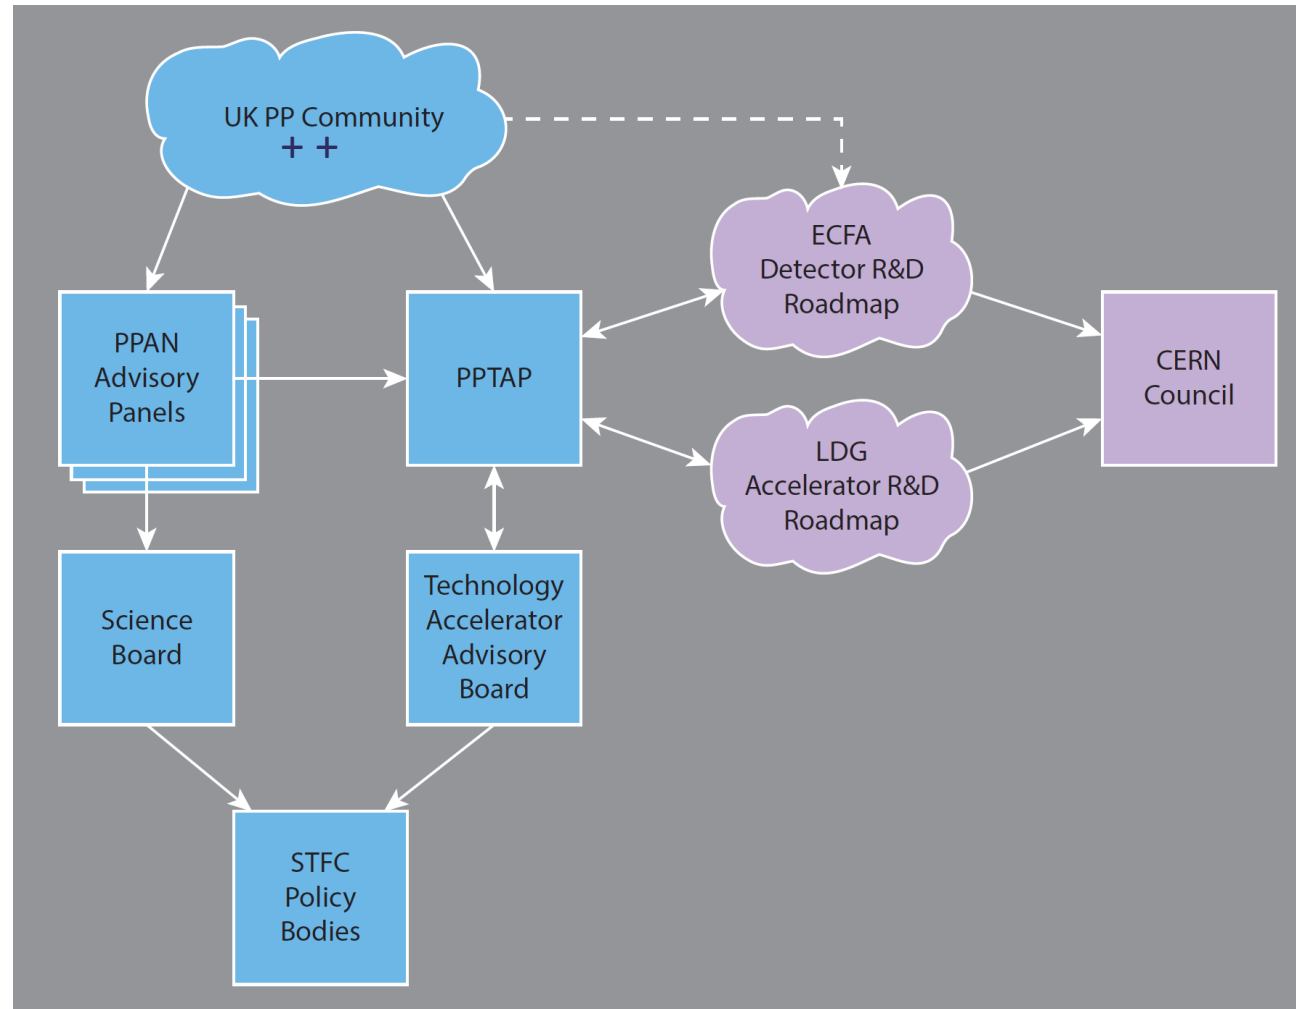

The UK Challenge...

- Identify where UK scientific interests and technological strengths lie
- Understand where the main technological challenges and opportunities are and how the UK can contribute
- Look for areas where there are commonalities with other UK science areas to boost this contribution
 - Not necessarily just STFC science
- Long-term projects need long-term plans – and we have to start early
- Get organised and get funded! (and not if not...)

PPTAP

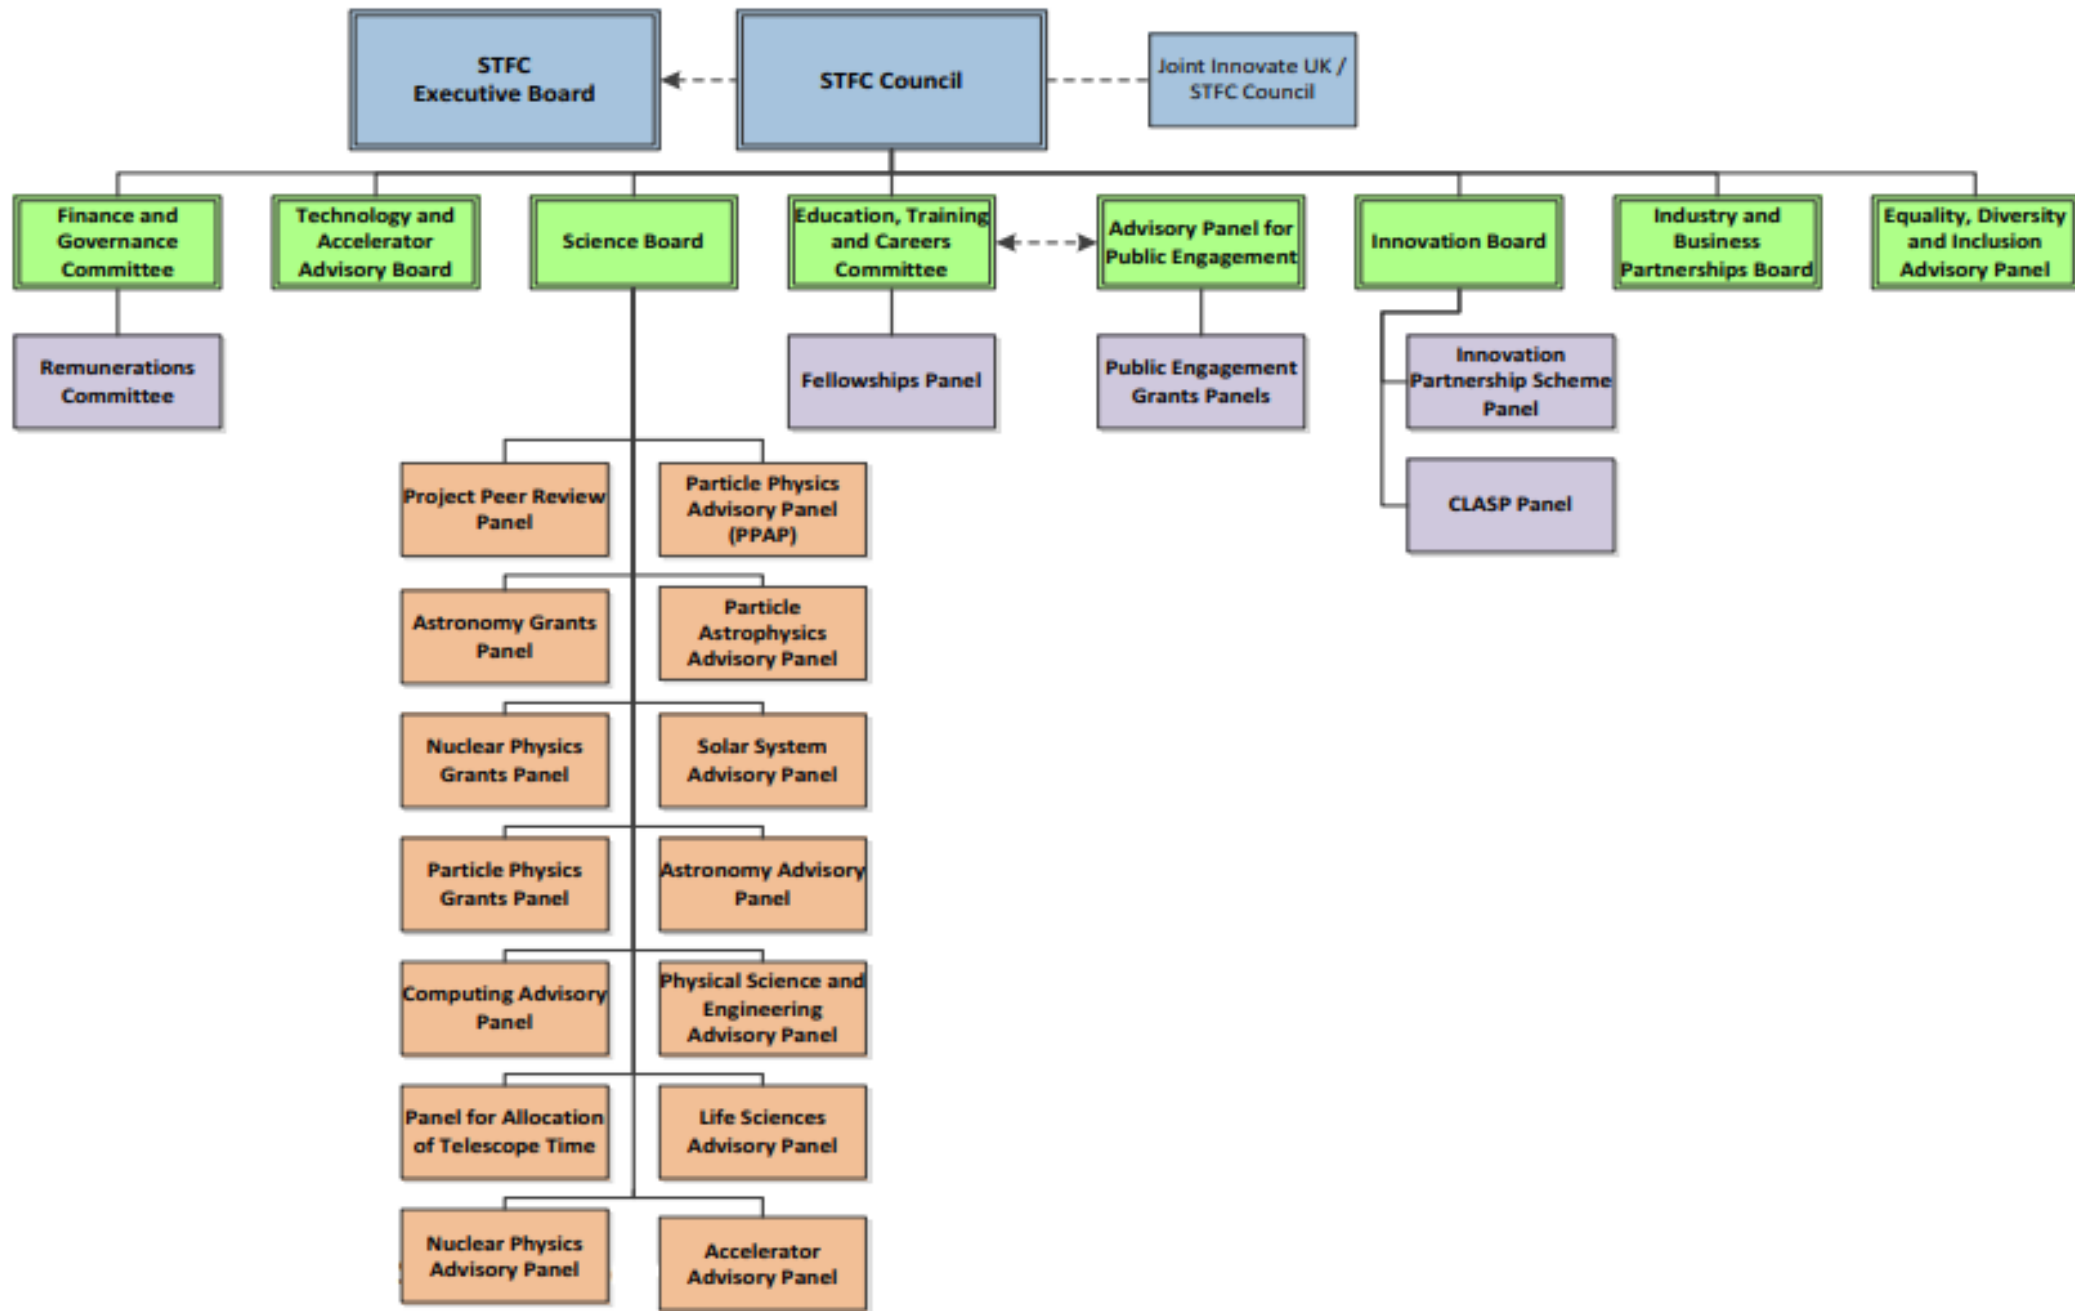

- Aims
 - overview of the emerging R&D roadmaps
 - understand the case for investment in R&D
- Need to look at current programme and landscape
- Gather evidence
- Look for strengths and synergies
- Explore routes forward
- Output - report autumn 2021

Roadmap activities

Technology & Accelerator Advisory Board

- Advise STFC on the development and maintenance of long-term technology and accelerator strategies. This includes identifying and prioritising opportunities for its technology and accelerator programmes;
- Provide advice on underpinning technology and accelerator development to support large scale facilities;
- Consult with the appropriate communities via STFC's advisory panels to ensure that technology and accelerator strategies remain the most viable for the UK;
- Consider possible new areas of activity, new collaborations and partnerships, giving advice on their strategic importance and the level of resource required to deliver them;
- Identify areas of missing capacity or capability;
- Advise on prioritisation within STFC's technology and accelerator programme, through the STFC programme evaluation process and specific ad-hoc reviews, as required;
- Identify potential avenues for the exploitation of technology developed as part of STFC's programme.

European Particle Physics Strategy Update

“Organised by ECFA, a roadmap should be developed by the community to balance the detector R&D efforts in Europe, taking into account progress with emerging technologies in adjacent fields.”

“The roadmap should identify and describe a diversified detector R&D portfolio that has the largest potential to enhance the performance of the particle physics programme in the near and long term.”

“Detector R&D activities require specialised infrastructures, tools and access to test facilities.”

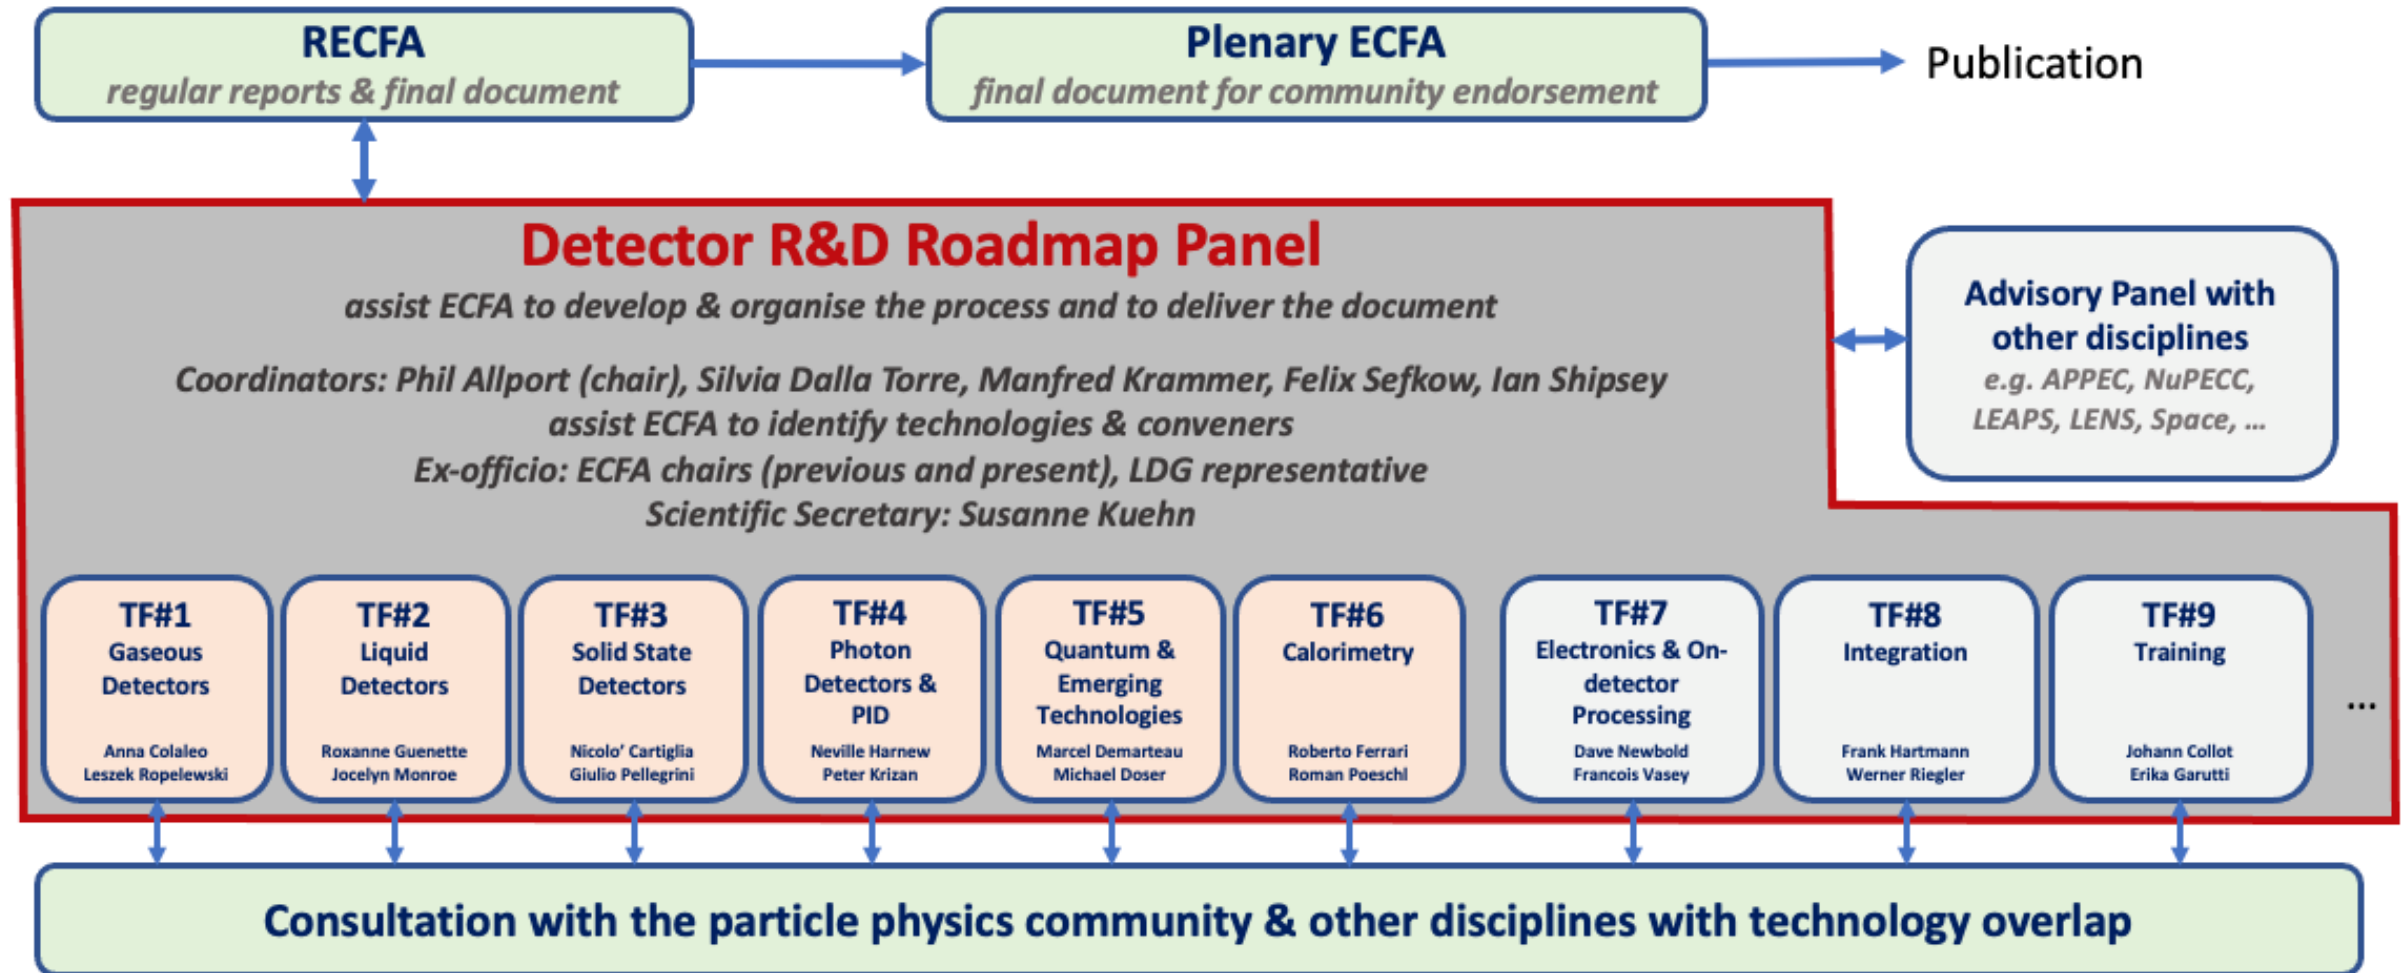

“The community should define a global detector R&D roadmap that should be used to support proposals at the European and national levels.”

Extracted from the documents of 2020 EPPSU, <https://europeanstrategyupdate.web.cern.ch/>

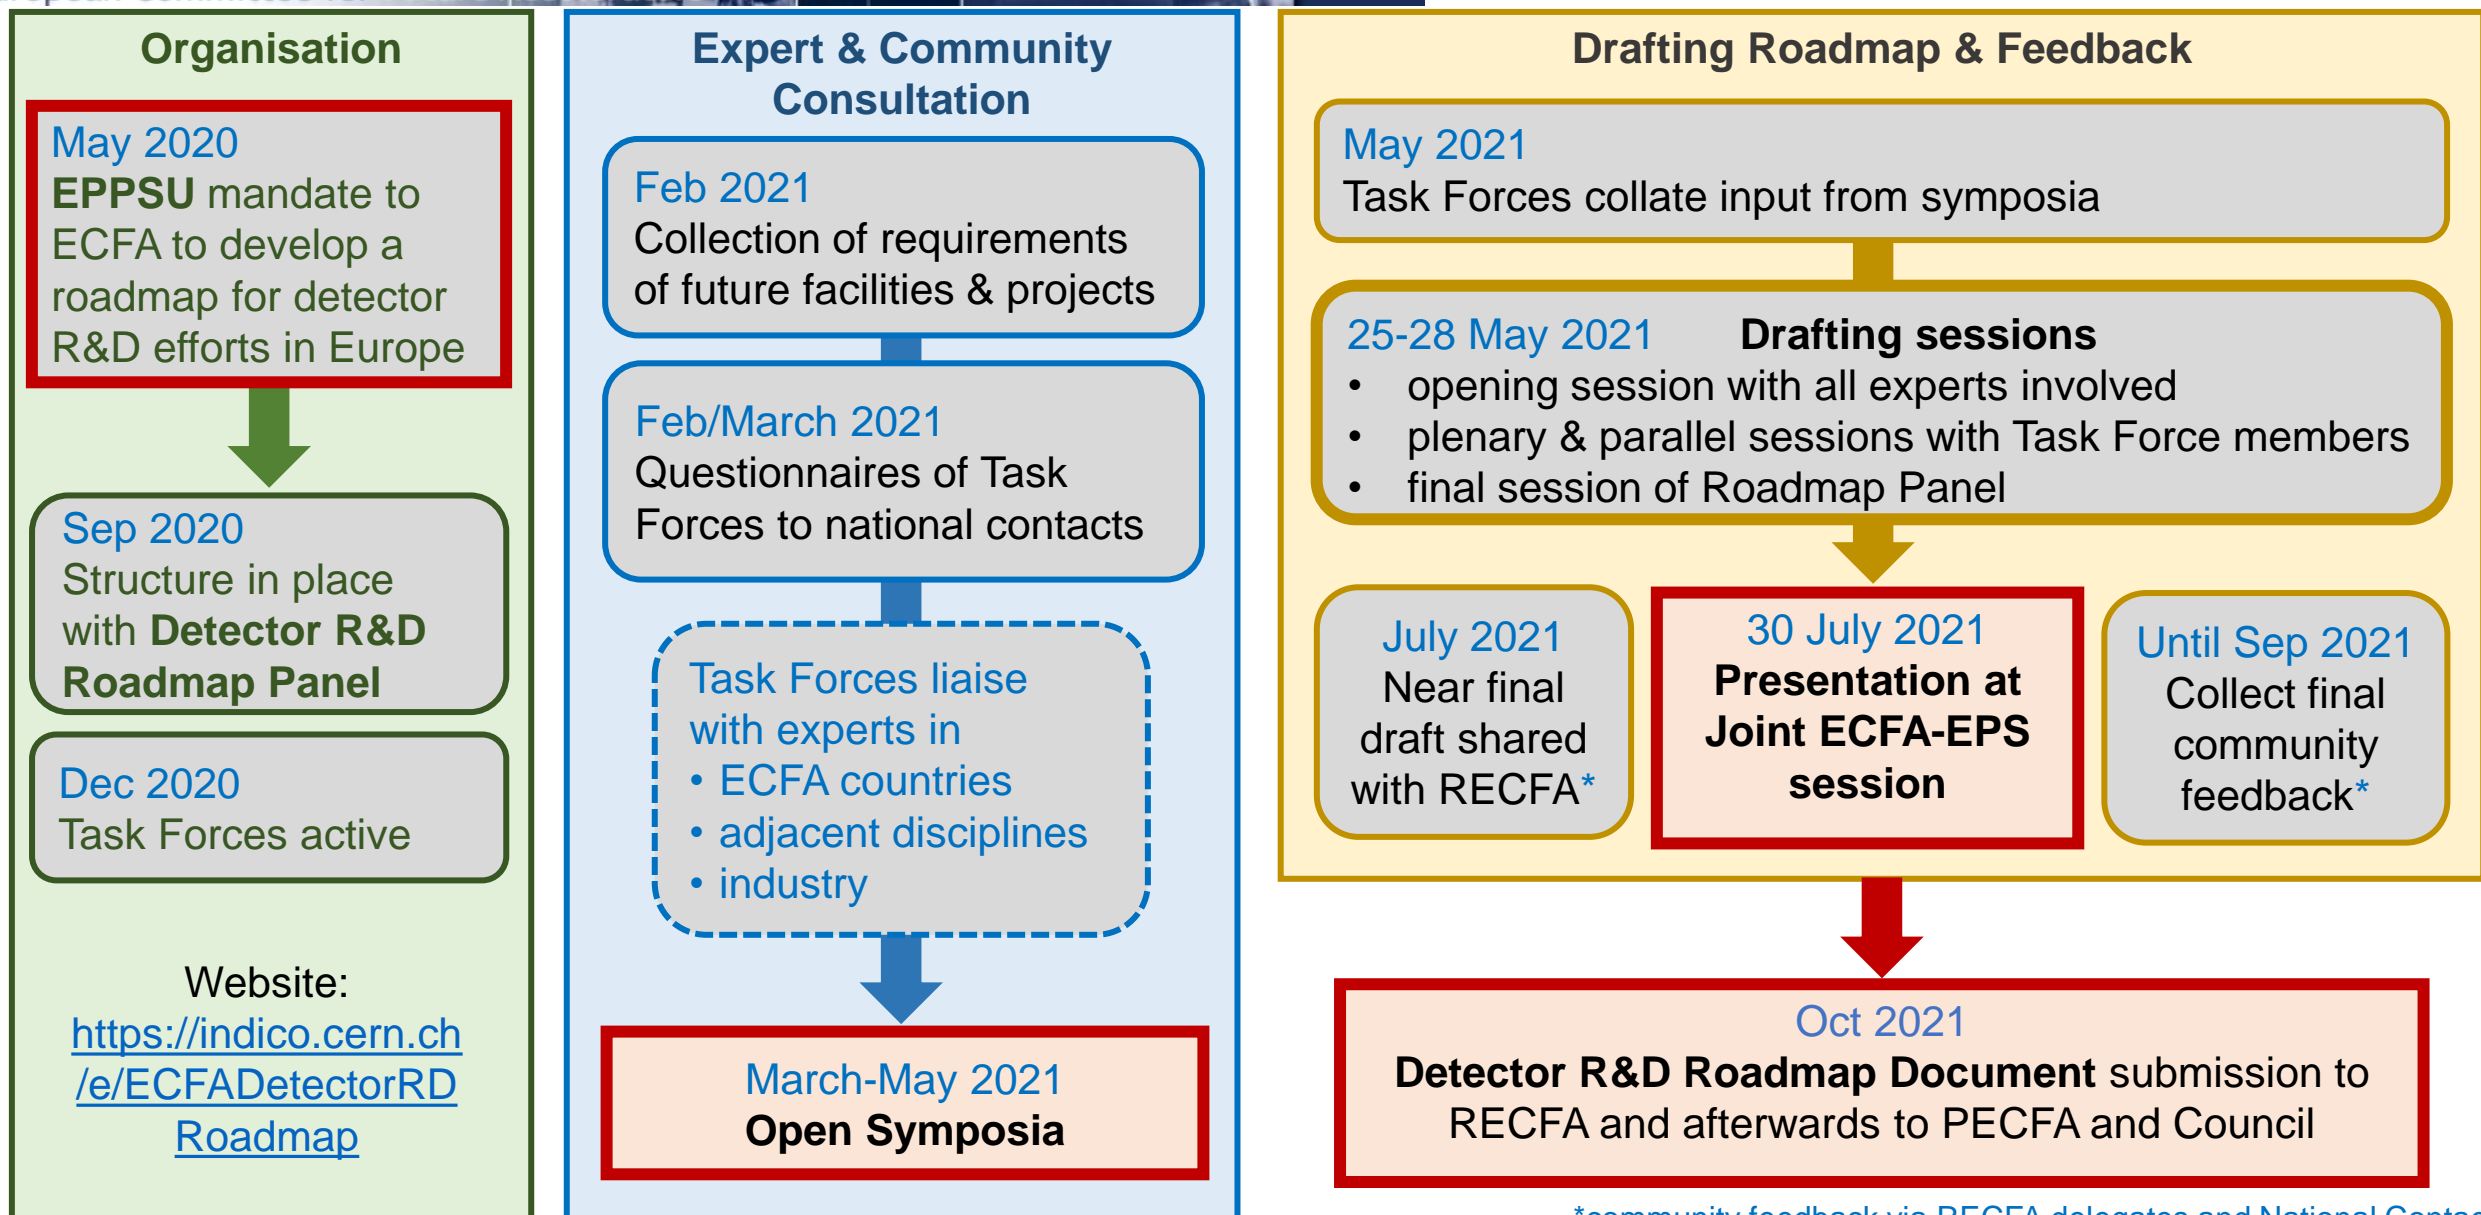

For previous presentations on the Detector R&D Roadmap see Plenary ECFA: Jorgen D'Hondt (13/7/20) & Susanne Kuehn (20/11/20) (<https://indico.cern.ch/event/933318/> & <https://indico.cern.ch/event/966397/>)

More roadmap process details at: <https://indico.cern.ch/e/ECFADetectorRDRoadmap>

Organization for Consultation of Relevant Communities

<https://indico.cern.ch/e/ECFADetectorRDRoadmap>

*community feedback via RECFA delegates and National Contacts

Input session of Future Facilities I

Friday 19 Feb 2021, 13:00 → 18:00 Europe/Zurich

- 13:00 → 13:30 **Detector R&D requirements for HL-LHC**
Speaker: Chris Parkes (University of Manchester (GB))

Expert & Community Consultation

Feb 2021
Collection of requirements of future facilities & projects

Feb/March 2021
Questionnaires of Task Forces to national contacts

Task Forces liaise with experts in

- ECFA countries
- adjacent disciplines
- industry

March-May 2021
Open Symposia

May 2021

- 07 May **ECFA Detector R&D Roadmap Symposium of Task Force 6 Calorimetry**
- 06 May **ECFA Detector R&D Roadmap Symposium of Task Force 4 Photon Detectors and Particle Identification Detectors**

April 2021

- 30 Apr **ECFA Detector R&D Roadmap Symposium of Task Force 9 Training**
- 29 Apr **ECFA Detector R&D Roadmap Symposium of Task Force 1 Gaseous Detectors**
- 23 Apr **ECFA Detector R&D Roadmap Symposium of Task Force 3 Solid State Detectors**
- 12 Apr **ECFA Detector R&D Roadmap Symposium of Task Force 5 Quantum and Emerging Technologies**
- 09 Apr **ECFA Detector R&D Roadmap Symposium of Task Force 2 Liquid Detectors**

March 2021

- 31 Mar **ECFA Detector R&D Roadmap Symposium of Task Force 8 Integration**
- 25 Mar **ECFA Detector R&D Roadmap Symposium of Task Force 7 Electronics and On-detector Processing**

Materials from past Symposia, Input Sessions and other components of the ECFA Detector R&D Roadmap Process can be found at <https://indico.cern.ch/e/ECFADetectorRDRoadmap>

LDG Roadmap Requirements

- Provide an agreed structure for a coordinated and intensified programme of particle accelerator R&D, including into new technologies, to be coordinated across national laboratories
- Be compatible and commensurate with corresponding roadmaps in detectors, computing and other developments, with a compatible timeline and deliverables
- Be based on the goals of the European Strategy, but defined in its implementation through consultation with the community and, where appropriate, through the work of expert panels
- Take into account, and coordinate with, international activities and work being carried out in other related scientific fields, including development of new large-scale facilities
- Specify a series of concrete deliverables, including demonstrators, over the next decade
- Be designed to inform, through its outcomes, subsequent updates to the European Strategy.

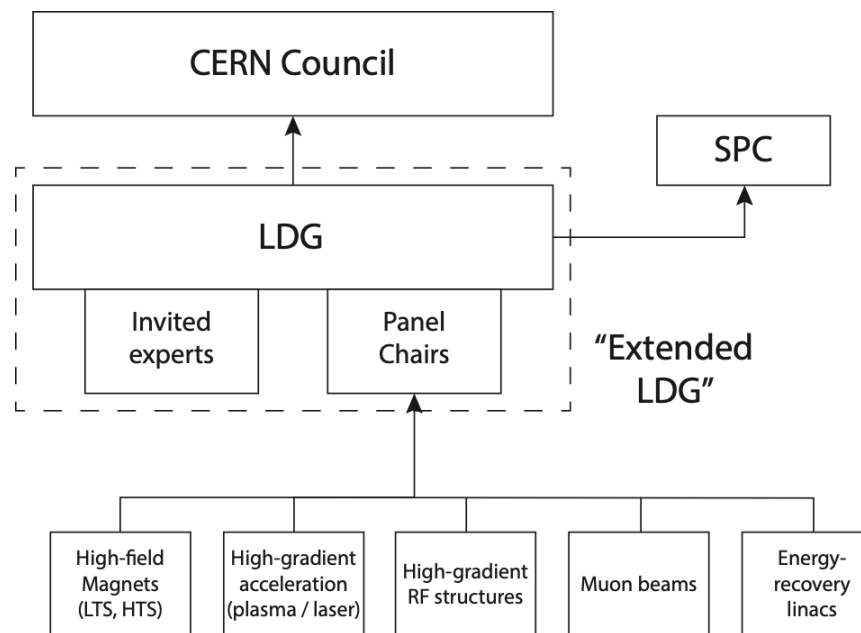

LDG Roadmap Process

Five expert panels appointed:

- High-field magnets, including use of high-temperature superconductors
- High-gradient acceleration (plasma / laser)
- High-gradient RF structures and systems
- Bright muon beams and muon colliders
- Energy-recovery linacs

Panel chairs

- Magnets: P. Vedrine (IRFU)
- Plasma: R. Assmann (DESY)
- RF: S. Bousson (IJCLab)
- Muons: D. Schulte (CERN)
- ERL: M. Klein (Liverpool)
- Diverse and international set of panel members now in place and starting work

Status, Timeline and Outcome

Process is really now starting in earnest

- Panels are now fully populated, initial meetings have taken place
- List of workshops and input sessions being populated:
 - <https://indico.cern.ch/category/13700/>
- Key questions and issues being identified

Timeline

- March: Council confirmation of roadmap scope and process
 - Emphasis on 'inclusivity across the community'
- June: SPC update
- June: proposed public workshop for HEP community (NEW)
- July: Presentation of progress at EPS-HEP conference for feedback
- September: Present interim findings to SPC / Council (facts, not priorities or plan)
- December: Council approval of final report, definition of next steps

Outcome

- Yellow report summarising work of the panels and synthetic conclusions
 - We may wish to include additional thoughts / material on 'cross-cutting' issues, e.g. training
 - Clear that 'preparatory documents' may be of publishable quality
- SPC / Council recommendations on priorities and next steps

PPTAP Membership

Accelerators

Prof Deepa Angal-Kalinin, ASTeC STFC
Prof Robert Appleby, Manchester
Dr Chris Rogers, ISIS STFC
Ben Shepherd, ASTeC STFC
Prof Matthew Wing, UCL

Computing

Dr Neil Chue Hong, Edinburgh
Dr Tim Scanlon, UCL

Observers

Prof Phil Burrows, JAI
Prof Jim Clarke, ASTeC STFC
Charlotte Jamieson, PD, STFC

Detectors

Prof Adrian Bevan, Queen Mary
Prof Kai Bongs, Birmingham
Rob Halsall, Technology STFC
Dr Kimberley Palladino, Oxford
Dr Angela Romano, Birmingham
Dr Craig Sawyer
Dr Eva Vilella-Figueras, Liverpool
Prof Iacopo Vivarelli, Sussex

Prof Max Klein, Liverpool, RECFA
Prof Dave Newbold, PPD, STFC
Prof Peter Ratoff, CI

PPTAP

- [Webpage](#)
- Meetings: monthly since December
- Gathering information
 - Community survey closed 12th March
 - Circulated via PPAP, PAAP and other professional networks
 - Circulating ECFA and ELDG questionnaires
 - Subject area community meetings/workshops

Community Survey

Text at the top of this page reads:

When answering the questions, responses should not be constrained by known funding pressures, but should reflect affordable propositions.

2	Focussing on the field in which you work, but also considering the broader accelerator, detector and computing ecosystem, what do you see as the UK's main strengths and weaknesses in technology R&D? (200 words)	Text	Max 250 words
3	Focussing on the field in which you work, and thinking about technology and R&D needs, what do you view as the major technical challenges in your field at the moment? (200 words)	Text	Max 250 words
4	What do you see as the biggest barrier to achieving the aims of your field in the next 10-20 years? (200 words)	Text	Max 250 words
5	What problems do you foresee in achieving the aims of your field from 2040? (200 words)	Text	
6	What will be the impact of not addressing these problems outlined in question 5? (200 words)		

21 questions in total – included the option for respondents to agree to further contact – we had 63 detailed responses

Community Workshops/Meetings

- Envisaged over the couple of months
- Focus on specific sub-areas e.g. accelerators, calorimetry etc.
- Some sub-areas have already held preliminary meetings
- These aim to fill in any gaps, provide context to questionnaire responses etc.

Community Meetings (so far)

- Accelerators
 - Preliminary meeting on March 31st
 - Further meetings in due course
- Computing
 - Specific community survey next month
 - Workshop in June
- Detectors
 - Likely a workshop in June
- Particle Astrophysics
 - Series of short, informal meetings, most of which have happened – DM, GWs, neutrino astrophysics, gamma-ray astrophysics
