

ECFA draft review process

- Draft of ECFA detector roadmap distributed to RECFA representatives and national contacts on July 2nd with the following recommendation:

we ask you to look at and review the document carefully concerning its structure, the main research lines defined, as well as the main observations made and conclusions drawn. Please let us also know if you think that issues have been omitted that you would expect to appear here. We are not asking for detailed feedback on the text. This will be harmonised at a later stage.

- Deadline to react is Friday July 16th at 17.00 UK time.
- Comments will be discussed by a RECFA subcommittee and Panel coordinators during the week of 19th July.
- PECFA meeting on 23rd July to summarise the comments.
- Presentation by Phil Allport to EPS on the 30th of July.
