

# Advancing Radiobiology Technology (ART)

## Tuesday, 24 October 2023

### Radiation biology and biophysics: Radiation biology and biophysics (10:05 - 11:20)

-Conveners: Mark Leake

| time  | [id] title  | presenter           |
|-------|---|---------------------|
| 10:05 | [9] Probing extreme high dose-rate radiobiology with laser-based approaches                       | Prof. PRISE, Kevin  |
| 10:25 | [10] Hadron Therapy for the UK  | Prof. GIACCA, Amato |
| 10:45 | [11] Investigating the radiobiology of protons with increasing LET in head and neck tumour models | PARSONS, Jason      |
| 11:05 | [12] Discussion   |                     |
